

Technology Is The Driving Force Of The Antichrist

By David Hopkins

[Dan 2:41-43](#) And whereas thou sawest the feet and toes, part of potters clay, and part of iron, the kingdom shall be divided; but there shall be in it of the strength of the iron, forasmuch as thou sawest the iron mixed with miry clay. And as the toes of the feet were part of iron, and part of clay, so the kingdom shall be partly strong, and partly broken. And whereas thou sawest iron mixed with miry clay, they shall mingle themselves with the seed of men: but **THEY** shall not cleave one to another, even as iron is not mixed with clay.

Most interpretations of the ten toes mixed with iron and clay claim that the iron is the revived Roman empire, and the clay is the rest of the world.

This comes from the fact that the legs are made of iron and are recognized as the original Roman empire when matched up with the prophecy in revelation.

Besides that, every translation of the Bible that I've seen except for the King James Version has changed the meaning of this verse to ONLY mean this exact thing. But the truth is, a revived Roman empire is only partially true.

This prophecy is actually a three part prophecy!

So, what if it also means something more diabolical?

The question is who are they?

Who are the ones identified as not man and mingling with the seed of men?

Iron = they - The individuals who are not man

Potters Clay = man [Isaiah 64:8](#)

Therefore, iron is not man, since clay is identified as man, and iron was commonly used to make machines of war like the chariot and weapons like the sword.

The iron is not compatible physically with clay, yet there is an action to mingle with the seed of man.

But why is iron, which is normally recognized as an inanimate object being referred to as they?

If iron (machines) which is not compatible with man (clay), is mingling, then what is the result?

A revolution of people getting technology based implants, chips and augments in place of tattoos perhaps?

And the creation of a spiritless and soulless antichrist as part man and part machine perhaps?

Here's where it lines up with revelation thirteen.

Revelation thirteen calls the antichrist the beast that was, yet is not, yet is to come, and will come from the bottomless pit, and says the whole world will marvel who's names are not written in the book of life.

Some interpretations say this also means the revived Roman empire, but that doesn't fit because the Roman empire was in power at the time John

had his vision.

So the beast that was, doesn't fit the original Roman empire from John's perspective, it only fits from a future perspective.

Another belief is, the clay is a religious system and the iron is the political system and that's why it doesn't mingle.

And this is partially true too, because the Roman empire has already been revived today through the catholic church.

But why hasn't the antichrist shown up yet?

Now, I'll tell you what fits the most and makes the most sense.

A future man that dies, and is resurrected with technology, without a spirit or soul, but only memories from the brain.

Let's not forget that revelation thirteen also says that the beast that was, yet is not, yet is, is also the name and number of a man or the six, six, six.

Now let's try this, the beast that was alive, yet is not alive, yet is alive.

This makes the most sense because it also allows the devil to make a counterfeit resurrection for the whole world to see, just like Jesus was resurrected from the dead after three days.

And it also fits perfectly with the unholy trinity of revelation thirteen, or the beast, his image and his mark which clearly points to technology being used.

Hence, this is the reason the whole world will marvel.

Other than that, why would anyone marvel if it's just the return of a political system that mixes with a religious system?

The Roman empire has already been revived today through the catholic church, and I for one am not impressed.

Also, there is more indication that a future pope is the false prophet than the antichrist.

[Dan 11:36-39](#) And the king shall do according to his will; and he shall exalt himself, and magnify himself above every god, and shall speak marvelous things against the God of gods, and shall prosper till the indignation be accomplished: for that that is determined shall be done. Neither shall he regard the God of his fathers, nor the desire of women, nor regard any god: for he shall magnify himself above all. But in his estate shall he honour the God of forces: and a god whom his fathers knew not shall he honour with gold, and silver, and with precious stones, and pleasant things. Thus shall he do in the most strong holds with a strange god, whom he shall acknowledge and increase with glory: and he shall cause **THEM** to rule over many, and shall divide the land for gain.

The next question is who are them?

Who are the ones that the antichrist causes to rule over many?

And notice that the verses start out saying that the antichrist will magnify himself above every god, including the most High God.

Then it says that he will honor the god of forces, and finally ends saying he will cause them to rule over many, referring to the god of forces.

So who is this god of forces?

The god of forces is the same as the iron that mingles with the clay.

Or in other words, they are the artificial intelligent machines that the antichrist will cause to rule over many which is also backed up by the image and mark of the beast predictions in revelation thirteen.

In conclusion, God wants His Holy spirit to dwell inside of us, not technology, it is the ultimate abomination to choose to create something in order to deny and replace the true God.

This is the final trick of the devil, because this is the ultimate and the worst kind of idolatry.

The world is already being desensitized by getting tattoos and depending on technology with our phones and other devices.

So ask yourself, what will happen when they introduce and combine the two into a computer chip that they can place under the skin similar to a tattoo.

And when they integrate it into health care services, and security or ways to defeat terrorists, and gaming or other forms of entertainment?

And I am a person who understands and uses a lot of technology.

But I never felt a strong enough desire to get a tattoo.

How about you? And consider how plugged in the next generations will become.
