

Evolution Is A Lie Against God

By David Hopkins

Evolution is a bold and offensive trick of the devil that goes against the word of God.

It's not a theory, it's a flat out lie.

It's meant to cause confusion about who we are, where we came from, and what we're supposed to do.

It directly contradicts and disagrees with almost everything in the Bible.

Especially Genesis and the story of creation to the point of embarrassment.

Depending on which side you're on.

Since evolution is the religion of atheists.

[Psalms 53:1](#) The fool hath said in his heart, There is no God. Corrupt are they, and have done abominable iniquity: there is none that doeth good.

There are some who believe that evolution and creation can co-exist.

But this simply is not possible without calling the Word of God a lie, or misinterpreting the word of God to make it fit in with a world view.

[2 Corinthians 6:15](#) And what concord hath Christ with Belial? or what part

hath he that believeth with an infidel?

God created the Heavens and the earth in six days, and evolution claims creation happened out of no where throughout millions of years.

These arguments get heated and the name calling from anger and frustration gets intense among believers and non-believers.

Due to the fact that atheists are just as passionate about their religion as Christians.

[Psalms 2:1](#) Why do the heathen rage, and the people imagine a vain thing?

Proponents of evolution would like you to believe that we're an accident of chemicals coming together and changing over millions of years.

Pretty much calling us worthless, pointless, useless accidents of nature who have no real purpose but to survive.

Evolution subtly promotes elitism, racism, adapt to survive, and survival of the fittest mentalities through it's distorted view of [Natural Selection](#).

Which has some truth to it, but becomes false when combined with evolution.

Where there is no God, there are no moral standards, only the fittest survive, win by any means and at all costs to keep your offspring alive, sexual perversions, and other disappointing beliefs of a similar nature.

No heaven or hell or eternal consequences for sin.

That we don't have a spirit, therefore we weren't created in the image of God, because there is no God.

That we are no different than any other animal.

And that we're descended from apes.

And different species came from different human-like apes around the same time in different regions.

And yet we're all able to reproduce today.

This makes no sense.

If we evolved from apes, then why are there still apes?

Oh, so you say the human looking apes were extinct five to eight million years ago and both humans and modern apes evolved from this species.

And the only real evidence that you have are similarities in the genome.

Don't make me laugh.

And why can't apes and humans reproduce?

OK, I'm not a scientist, but that's common sense.

The Bible is clear that God created every animal after it's kind.

[Gen 1:21](#) And God made the beast of the earth after his kind, and cattle after their kind, and every thing that creepeth upon the earth after his kind: and God saw that it was good.

Also Billions of years and the big bang are also flat out lies that coincide with the lie of evolution.

They can't find missing links to prove evolution is true because there are no missing links.

Why do you think they're trying so hard to find life on other planets?

Then they'll say, "see there is no God".

Fooling millions of confused Christians into believing this lie.

[2 Thessalonians 2:11-12](#) And for this cause God shall send them strong delusion, that they should believe a lie: That they all might be damned who believed not the truth, but had pleasure in unrighteousness.

They'll say, "The origin of man is no longer debatable, believers of the Bible are a danger to modern society with their outdated beliefs".

Then they'll persecute the rest of us for continuing to believe the truth of the word of God.
